

Cincinnati Police Department STAFF NOTES

May 15, 2012

James E. Craig, Police Chief

Emergency Communications Center Liaison

- [Out-of-Town Stolen Vehicle Recoveries](#)

Training Unit

- [Surveillance Detection for Law Enforcement and Security Professionals Training](#)

Chief's Office

- [COMPSTAT Information](#)
- [Police Chief's Commendations for the Week](#)
- [Thank You Letters](#)

1. OUT-OF-TOWN STOLEN VEHICLE RECOVERIES

Department personnel should review Procedure 12.420, Reporting Vehicle Thefts and Related Offenses. The procedure directs personnel tasked with recovering a vehicle reported by another agency as “stolen” to:

- Query the vehicle through RCIC to obtain the vehicle information
- Identify the agency that originally reported the vehicle stolen
- Vehicles entered by an agency other than the Cincinnati Police Department require CIN1 to issue a “Hit Request Confirmation” with the originating agency (ORI) prior to requesting a Signal 38 for the vehicle

All initial contact and hit confirmation requests with the ORI **must** be made through the CIN1 Operator. Personnel should never contact an ORI directly to confirm an entry when making an “out-of-town” recovery of a stolen vehicle.

Direct any questions to Sergeant Chantia Miller, Emergency Communications Center Liaison, at 263-8101, or to Ms. Kathryn Wabnitz, at 263-8108.

2. SURVEILLANCE DETECTION FOR LAW ENFORCEMENT AND SECURITY PROFESSIONALS TRAINING

Cincinnati-Hamilton County Homeland Security is sponsoring *Surveillance Detection for Law Enforcement and Security Professionals* Training, at the Symmes Township Safety Building, 8871 Weekly Lane, Symmes Township, OH 45149. The training will take place beginning Wednesday, August 1, through Friday, August 3, 2012, from 0800 to 1700 hours each day.

The presenter is the U.S. Department of Homeland Security, Office for Bombing Prevention. This course provides law enforcement officers and security professionals the knowledge and skills necessary to conduct surveillance detection operations applicable for protection of assets from terrorist acts during periods of elevated threat. The course illustrates the means and methods used to detect surveillance while increasing awareness of terrorist tactics and attack history. Additional information regarding the training is [attached](#) to these Staff Notes.

There is no cost to attend this training; all Costs are being covered by the U.S. Department of Homeland Security. Personnel interested in attending the training must submit a Form 17, through the chain of command to Training Unit, no later than Friday, June 29, 2012. Training Unit will complete the registration and notify personnel approved to attend. Officers may attend on-duty with the approval of their supervisor. No overtime will be provided for personnel attending this training. Attendees may wear casual business attire or the operational uniform. Questions regarding this training should be directed to Administrative Specialist James W. Hendricks, Training Unit, at 357-7552.

3. COMPSTAT INFORMATION

Attached to these Staff Notes is the most current COMPSTAT Information. Department personnel are directed to review this information to ensure they remain familiar with crime patterns and trends occurring within the City and their areas of responsibility.

4. POLICE CHIEF'S COMMENDATIONS FOR THE WEEK

**POLICE OFFICER BETSY HAYNES
District Two**

**POLICE OFFICER JOSHUA PHILLIPS
District Four**

On Monday, April 16, 2012, at approximately 0100 hours, District Four Police Officers responded to 2809 Ashland Avenue to investigate a reported shooting offense. The responding officers located the victim in the street suffering from multiple gunshot wounds. Cincinnati Fire Department personnel transported the victim to University Hospital Medical Center, where he succumbed to his injuries shortly after arrival.

In the course of the investigation, suspect information was broadcast by Emergency Communications Center (ECC) personnel. Police Officer Betsy Haynes began a search of information contained in the Department Records Management System and Regional Crime information Center databases and was able to provide information related to a vehicle associated with the suspect. This information was immediately relayed by the ECC personnel via an All County Broadcast.

Officer Joshua Phillips utilized this information to locate multiple vehicle photographs in the License Plate Reader database. Officer Phillips notified the Homicide Investigators of the information and printed photographs for distribution to officers assigned in the area. Officer Phillips, while en route to meet Homicide Investigators, observed the suspect vehicle and apprehended the suspect on Victory Parkway.

Police Officer Betsy Haynes and Police Officer Joshua Phillips are deserving of this commendation for the professionalism, investigative skills, teamwork and use of technology, which resulted in the arrest of Mr. Kevin Floyd for the murder of Mr. Robert Mario Winkfield within two hours of the offense.

**POLICE OFFICER RICHARD MINELLA
District Three**

On Friday, April 20, 2012, while assigned to the District Three Neighborhood Liaison Unit, Police Officer Richard Minella responded to 2310 Ferguson Road for a robbery inside the Kroger Store of the Fifth Third Bank.

Officer Minella secured the scene, sought evidence from surveillance video, and immediately identified the suspect, Mr. Tony Ward, as someone whom he had previous contact with. Officer Minella recalled the suspect's recent residence and responded to that location with other officers.

After confirming the suspect's identity, Officer Minella relayed all of the information to investigators, which led to Mr. Ward's arrest on April 23, 2012.

This case is a testament to Police Officer Richard Minella's investigative work, dedication to duty, and commitment to the community he serves. Officer Minella is deserving of this commendation for the hard work and effort which exemplifies his outstanding work ethic as a great asset to the Cincinnati Police Department.

5. THANK YOU LETTERS

[Attached](#) to these Staff Notes are letters of appreciation and praise written to the Police Chief for the professionalism displayed by our Department, specifically the following personnel:

Lieutenant Colonel James Whalen
Lieutenant Mark Vennemeier
Police Specialist Andrew Nogueira
Police Officer Dwayne Dawson

Captain Daniel Gerard
Sergeant Brian Meyer
Police Specialist Salvatore Sala

Office for Bombing Prevention Surveillance Detection for Law Enforcement and Security Professionals Course

Overview

In support of its mission to reduce the risk to the Nation's critical infrastructure, the NPPD Office of Infrastructure Protection maintains a catalog of training programs to develop awareness of terrorist threats to critical infrastructure among Federal, State, local, tribal, territorial and private sector entities and educate participants on strategies for detecting and mitigating these threats. The Office for Bombing Prevention training is specifically designed to increase resilience while enhancing bombing prevention capabilities. Coordinated with State Homeland Security Officials and training offices, these courses may be requested by State, local, tribal, territorial agencies and critical infrastructure owners and operators through DHS Protective Security Advisors (PSAs) and the Office for Bombing Prevention.

Course Purpose

This course, designed for law enforcement and private sector security professionals, provides participants with the knowledge, skills, and abilities to detect hostile surveillance conducted against critical infrastructure. This course increases awareness of terrorist tactics and attack history and illustrates the means and methods used to detect surveillance.

Module 1: Administrative-Introductions/Course Overview

This module allows the instructor to present administrative information, make introductory remarks, and describe the course and how the course is conducted over the coming days. This time is also used for students to introduce themselves to one another and complete a course pre-assessment to determine a baseline of knowledge.

Module 2: Terrorist Operations and Facility Vulnerability Assessment

This module of instruction covers Terrorist Methodology, Terrorist Attack Fundamentals, Attack History, Attack Cycle, and Rings of Security. Case study analyses are utilized to illustrate teaching points. Working in groups, students perform a practical exercise on a facility from an adversarial perspective to identify potential vulnerabilities the facility may exhibit and why they would be of interest to a potential attacker.

Module 3: Surveillance, Identifying Hostile Surveillance Positions (HSPs), and Surveillance Detection

This module covers how to determine where potential hostile surveillance may be conducted on a targeted facility. Students conduct an analysis of a facility to determine position and platforms that hostile surveillance could occupy. Techniques used by hostile surveillance to remain covert are discussed as well as techniques to identify possible surveillance. In groups, students conduct an exercise to determine possible hostile surveillance locations ("Red Zone") and prepare an operational plan to conduct surveillance detection at that facility.

Module 4: Surveillance Detection Planning and Operations

Students are presented materials on operational planning, safety, security, and response. Following instruction and incorporating course materials developed from previous modules,

students conduct a four to five hour long capstone exercise against role players acting as hostile surveillance. The day culminates with an exercise debrief and certificate presentation.

The following information will assist the DHS training team in the coordination of the Surveillance Detection for Law Enforcement and Security Professionals Course. Requirements for supporting this course include the following:

Background Information:

Prior to traveling to the training site, the instructor team can benefit by having the following site specific information:

- History of attacks or reported surveillance detection in the area.
- Any scheduled upcoming major events within the region that may require additional Bombing Prevention Training or security planning initiatives.
- What critical infrastructures are the priorities or concerns within your region?
- Any Surveillance Detection exercises/training, interaction with NOC, JTTFs, Terrorism Working Groups, and Regional Fusion Centers conducted or planned.

Facility: A local venue large enough to accommodate the course attendees, local stakeholders, facilitators, and the projection of the presentations.

Course Format and Participant Requirements: The Surveillance Detection for Law Enforcement and Security Professionals Course is a three day course presented in a classroom style for up to 25 participants (with a minimum participant requirement of 18 registered for the course no later than 10 days out from the instructors traveling to the course location). ***If minimum requirements are not met by the deadline, the course will be canceled.*** Attendance should not exceed 25 participants without prior approval from DHS/OBP.

Practical Exercise Training Area: A suitable training area(s) will need to be identified for the practical exercises, preferably near the training location. Depending on the building/facility the classroom is in, the same building/facility may be suitable for the practical exercise. The facility will need to be large enough, in an area that will support the exercise (adequate amount of pedestrian traffic) and one that the students will have access to. The lead instructor will discuss this in more detail during pre-course coordination.

Role Players: Role players will be required for the final exercise on the last day of training. ***The hosting agency is expected to provide the role players.*** The final exercise normally runs from approximately 1000-1500 hours on the third day of class. This includes deployment and debrief. Normally, 6-8 role players are sufficient, but 10-12 would enhance the exercise. The role players need no special qualifications and will be briefed by the instructors on specific activities they need to perform. Role players can be employees of your agency or sister agencies, friends, or family members, but it is important that they not be recognizable to the students. ***Failure to meet the role player requirements will result in course cancellation.***

Equipment: We would like to request your assistance in facilitating the following:

This is the ideal equipment list for ensuring the course environment is conducive for the duration of this course. Please coordinate with the DHS vendor training team for availability of equipment within your region:

- Classroom style sitting for 30 people (25 students, 5 observers)
- Easels with chart paper (3)
- Dry erase markers
- Extension cords (1)
- Power strip (1)
- Cart or table for laptop and projector
- Projector
- Extra table for instructors

Note: Classroom seating should include tables or writing surfaces for each student. The course involves note taking and table top exercises.

Liaisons: A course and registration liaison is requested to coordinate dates and venue location for the course, and to facilitate course registration. A facility liaison is also requested to lead our instructor team on a walkthrough of the training site selected for the course on the day before class begins. This will enable the training cadre to acquaint themselves with the audio/visual configuration of your selected site. Additionally, we would like to request a liaison to receive shipment of training materials for the course. The name, phone, and time to contact the liaison should be provided.

Recommended Participants: Law enforcement and private sector security professionals of critical infrastructure.

If you have any questions, please don't hesitate to contact me.

Respectfully,

Jessica Gray

Cost:

This tuition-free workshop will be provided by DHS – however, any lodging/per diem expenditures will not be reimbursed by DHS – those expenditures will be the responsibility of the attendees' own agency/department/company.

CITY OF TOLEDO

DEPARTMENT OF POLICE OPERATIONS

May 1, 2012

Lieutenant Colonel James L. Whalen
Neighborhood Policing Bureau Commander
Cincinnati Police Department
310 Ezzard Charles Drive
Cincinnati, OH 45214

Dear Lieutenant Colonel Whalen:

On behalf of the entire TCIRV Team, the Toledo Police Department, and the City of Toledo, I would like to take this opportunity to express my deepest appreciation for your assistance in preparing for our first call-in and the implementation of our Toledo CIRV project. As you are aware, the project was successfully implemented with the call-in held on April 27, 2012.

To share your knowledge and expertise with other cities shows great leadership and commitment to solving the very complex problem of gun violence. The Cincinnati Police Department should be extremely proud of the very professional way you have represented them across the State of Ohio.

Again, we thank you and look forward to working together in the future.

Sincerely,

Derrick Diggs
Chief of Police

Captain Daniel W. Gerard
Special Operations Section Commander
Cincinnati, Ohio Police Department
310 Ezzard Charles Drive
Cincinnati, OH 45214

Dear Captain Gerard:

On behalf of the entire TCIRV Team, the Toledo Police Department, and the City of Toledo, I would like to take this opportunity to express my deepest appreciation for your assistance in our intelligence gathering session and the implementation of our Toledo CIRV project. You were also very helpful in sharing with our Gang and Criminal Intelligence Units your department's experiences.

You should be commended on the professional manner in which you represented the Cincinnati Police Department. We have you to thank for our success in the process of implementing such an important project.

Again, we thank you and look forward to working together with you in the future.

Sincerely,

Derrick Diggs
Chief of Police

April 10, 2012

Cincinnati Police Department
Chief James E. Craig
310 Ezzard Charles Drive
Cincinnati, OH 45214

Dear Chief Craig,

My name is John Demmitt, and I am the Criminal Justice instructor for Butler Tech's Criminal Justice program for secondary students – high school juniors and seniors. Recently the students and I toured portions of the Regional Operations Center, with an emphasis on SWAT operations.

Sergeant Brian Meyer was very helpful in scheduling the trip, Specialist Andrew Nogueira and Specialist Salvatore Sala provided educational and enjoyable presentations to the students about many of the aspects of SWAT, and Lieutenant Mark Vennemeier was very hospitable to our visits. It was quite obvious, that those I mentioned are very knowledgeable of their roles and that they maintain a passion for their careers as law enforcement professionals. As a retired Lieutenant of the Atlanta Police Department and a Criminal Justice instructor, I believe that these members of your agency should be commended. Besides the personnel that I have mentioned by name, all members of your agency that we had contact with were extremely courteous and professional.

Our trip to the Cincinnati Police Department's ROC was very educational and enjoyable. I am very impressed with the positive and professional presentations that were provided by your staff. Lastly, I am confident in saying that my students have a positive image of the Cincinnati Police Department as a result of impressions provided by the personnel that I mentioned.

Regards,

John Demmitt
Instructor – Criminal Justice

April 30, 2012

Sgt. Cassandra Tucker
Cincinnati Police Department
3295 Erie Avenue
Cincinnati, OH 45208

Dear Sgt. Tucker;

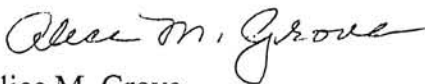

In early March of this year I nearly missed a bus because a car was parked in a Metro bus stop at the corner of Marburg and DeForest. The driver did not see me right away even though I was standing out in the street. But he did stop. I had to run over a half a block to the bus and being 70 years old it was not a good beginning to the day.

I spoke with the car's owner and she was rude beyond belief. I then called Metro and they were not much help. I called Parking Enforcement and a member of the Cincinnati City Council and still could not get help. In a few instances I felt as though I was interfering with their day.

Then I heard there is a Cincinnati Police Department officer assigned to help the Oakley/Hyde Park community. From there I was referred to Officer Dwayne Dawson and that is when things began to happen. He listened with interest--yes, you can "hear" someone listening—and he told me he would look into it. Several days later he called back and told me he indeed did visit the site and would continue to work on the problem.

Since that time I have not seen anyone parked in that Metro bus stop. Officer Dawson was the only person who was pro-active and took action to remedy the situation. The citizens in the Oakley/Hyde Park area are so fortunate to have an officer like Dwayne Dawson on their side.

Sincerely,

Alice M. Grove

My dear friends at CPD.

Thanks for a great
send off into retirement and
I wish you only the best as
you move on without me. I
will be with you in spirit.

Please keep in touch and

stay safe

Cindy Combs

...are a wonderful reflection
of God's special love!

Thanks Very Much!
